Delilah goes to Texas

Delilah was left tied to a tree by an owner who didn't want her anymore. Franklin County Animal Control saved her from that unfortunate situation, and then they and Animal Harbor worked together to get her transferred to the Harbor. Delilah was the epitome of a hound, she was goofy, and smart, and very vocal. It took a while for her to find a home that was just the right fit, and when she finally did, her adopters were from San Antonio Texas! Delilah's new family happened to be visiting Franklin county when they stopped in based on a family members recommendation and found their perfect match.

Arabella gets over her shyness

This beautiful tabby point kitty adopted a family that already had a full house and didn't have room for nother. The family cared for her until Animal Harbor was able to find space for this mature kitty. Once Arabella got here, she was very shy. It took her a while to trust us, especially since she was getting medicine for an abscess on her jaw. The daily medicine did not help her warm up any quicker. But once she healed and realized we only had the best intentions at heart she became the loving and cuddly cat we always knew she could be. She found a home after being here about a month and is absolutly adored by her new family.

Doug and Wilder

Doug Traversa has been volunteering with us for many years. He has recently taken one of our senior residents home as a foster. Wilder is a sweet and gentle Whippet mix. He has been doing great, and has adapted well to crate training. Now that he has had some time in a home, and Doug has taught him some manners he is more ready than ever for a fur-ever home!

Fosters needed in case of Disaster

Disaster can strike at any time in the form of a tornado or a fire or some other event. We are working on our disaster plan and need a few more volunteers who would be willing to foster animals if such a disaster occurs. If you can do this, please contact Sue Ridyard at sridyard@sewanee.edu
